Description

Here is a superb early 20th Century Venetian etched glass mirror, comprising of a central bevelled mirror plate, with a brilliant cut frame, featuring etched foliate borders, finished with mirrored finials at each corner. When the light catches this mirror, it truly sparkles and reflects a fantastic amount of light back into the room. Measuring 64cm by 52cm, the mirror is in lovely condition, bright and clear with only the gentle surface wear of an item of this age - personally I find a bit of age an attractive addition to a mirror as I personally feel it adds character. Probably created around 1920 / 1930, this light and airy mirror would be an elegant addition to any room. Please don't hesitate to get in touch if I can provide any further information or photographs. I offer free delivery throughout the UK, and am very happy to help with quotes for shipping abroad.
