Description

A late eighteenth or early nineteenth century blue and white charger, elaborately decorated with repeated patterns of flowers and foliage. A beautiful piece in very good condition. This charger is absolutely beautifully, with very delicate decoration. It has a couple of chips to the rim, and a couple of chips to the glaze on the rear. It has a hole drilled through the foot at the back, where a hanging wire would once have been fitted. Free UK delivery - for delivery elsewhere please get in touch for a quote.
