Description

1930s nickel pocket watch and chain. The watch has a jewelled stem-winding movement which is working nicely. The watch measures 48mm diameter excluding the winding stem and the loop. The case is nickel and overall the condition is good, a couple of scratches to the side and some general light marking but nothing too serious. The glass lens is in lovely condition. The dial has blued steel hands, a subsidiary seconds dial and outer minute markers. There is a hairline between 2 and 8 but it is fairly faint. The watch comes with a single chain, 35cm long including the T-bar and the clasp. The watch and chain come in a new presentation box.
