Description

Late C19th Chinese Qing Dynasty carved hardwood trunk on stand . Deeply carved 'hual' hardwood chest with ovoid panels of prunus tree blossom and birds on branches . The verso with corresponding incised carved decoration. The front fitted with a decorative gilt-brass locking hasp , the ends carved with integral carrying handles . The panelled rising lid fitted with heavy quality brass hinges. Raised on its original removable panelled hardwood stand. The interior lined throughout with camphor wood. Camphor being well-documented as a protection against insect infestation to clothing or materials , having a perfumed property to the timber . A smart storage chest for use perhaps on a landing or at the end of a bed , to add an exotic oriental accent to an interior. In excellent original condition with a rich colour and patina.
