Description

Here is a lovely 19th century hand hammered English copper cauldron Jardiniere with a beautifully rounded bottom, standing on three brass lion masks, each with lions feet. The copper has a wonderful rich dark patina, but could be polished up if that is the finish that you prefer. The Jardiniere stands 22cm tall, and is 28cm across the top. It is a really handsome looking bowl, and has the surface wear that you would expect of a well loved piece of this age with the occasional dings that give it its character. As the photographs show, it displays beautifully. Please don't hesitate to get in touch of I can provide any further photographs or information. I provide free delivery throughout the uk, and am more than happy to help with quotes for shipping abroad.
