Description

A fantastic antique leather top drum table in mahogany. This was made in England, it is in the Regency style and dates from around the 1900-1920 period. It is of fabulous quality and is a very impressive size. The inset leather top has gold tooled edges, this sits a central column base with splayed sabre legs and brass hairy paw casters. There are four drawers in the top with brass ring pull handles and fine, hand cut dovetailed joints. We have had this recently revived and re-polished, the condition is excellent for its age. There is just some very minor wear and patina here and there, commensurate for age. Width – 36 inches , 92 cm Depth – 36 inches , 92 cm Height – 28 inches , 71 cm
