Gents 1950s Oris automatic  
watch, power indicator

Price

**Sold**

**Item Reference: SA1003952**

**Date of manufacture: 1950**

## Description

Gents 1950s Oris automatic watch, power indicator. The watch has a signed 17-jewel Oris 605 automatic movement which is working nicely. The watch measures 33.5mm diameter excluding the winding crown and the lugs. The case is gold plated while the screw-on case back is stainless steel. There is some rubbing to the plate along the angled edges but not too detrimental to the naked eye when the watch is being worn. The signed case back has some scratching. The lens is in good condition. The signed dial is in its original finish, some marking around the edge but again, not too noticeable when worn. Original hands. Power reserve indicator at the top of the dial. A new leather strap has been fitted. The watch comes in a new presentation box.
