Description

A pair of Regency comports or bowls together with a set of four salts. The bowls (Circa 1820) are very substantial, thick and heavy with stylised foliate and geometric patterns on lozenge shaped feet. They measure 21cm wide X 12cm depth X 16cm tall. The salts which we believe are slightly later (circa 1880) measure 8cm wide X 5cm depth X 7cm tall. All the pieces are in exceptional condition for their age with no chips or cracks and with a very interesting provenance. **PROVENANCE:** These pieces were originally sold at Christies, London on 26-27 January 2006, Lot 444. They were included with items from the estate of His Royal Highness, The Prince Henry Duke of Gloucester, KG, KT, KP. (1900-1974) He was the son of George V and Queen Mary. The hammer price at the time was £800. We can deliver free of charge in UK mainland and can calculate the cost for international delivery. Payment by bank transfer, PayPal or card via telephone.
