Description

A superb example of a stuffed and mounted Otter head dating from 1930. He has been well preserved and skilfully mounted on an oak shield. He has a snarling, alert expression with an open mouth and bright eyes. There is a brass plaque engraved "River Culm. 26-8-30". He is in good condition for his age. His teeth and mouth have been beautifully modelled and are in good condition. His fur is generally thick and has retained a good colour. There are some minor signs of age and wear but nothing detrimental and overall the condition is very good. The best description comes from the photographs so please look at them all carefully and if you have any questions just ask. Tracked UK Delivery £15
