Description

This Collection of Eight Coloured Glass Hyacinth Vases, some of which date from the Victorian era and some of which are later, make a stunning display even before the Hyacinths are 'planted' and bloom. Just fill the Vases with water up to the neck and place the Hyacinth bulb in the cup at the top making sure it doesn't touch the water but is quite close to it. Place in a dark cupboard until the bulb starts to show green at the top. Bring out and pop on an indoor windowsill. Now watch the roots grow into the water and, eventually, the Hyacinth bloom and fill the room with a wonderful perfume. The Vases are all in good condition. Average Height: 6 inches (15 cm) Express delivery within the UK is included. We ship Worldwide and are happy to quote for Overseas Shipping on request.
