Date of manufacture: Before 1700

Description

This is a beautiful coffe with an excellent naturally developed colour and original carved front. The top rail carved with beautifully formed lunettes, confident and fluidly carved by an experienced hand and repeated to the bottom rail. The stiles and muntins with foliage with flourishing terminals, deeply carved and showing the regularity of an experienced hand. Each fielded panel filled with stylised tulips. . The lid to the coffe is original and three panel also, the original iron loop hinges have been lost and replaced with early strap hinges but the original holes are undamaged and the looped hinges could easily be restored. The coffe with V cut feet and single boards of oak to sides, back and base. . Very sturdy, no issues, usable and beautiful. . A lovely example, probably West Country and dating from c. 1750 . . Dimensions are: . 45.25 inches wide, 23 inches deep and 26 inches high. . For metric please multiply by 2.5
