Description

Antique Decorative Carved Wall Panels A unique antiquity. Here we have this fine example of a pair of Edwardian (circa 1890) Walnut panels which have been salvaged from a cabinet. We have made ebonised frames for these panels turning them into decorative hanging wall plaques, ideal beside fireplaces or as an interesting and unique wall filler. These panels are carved with the highest skill in fine Walnut in the Art Nouveau style and differ very slightly in the image they depict, only in the fruit which is in the bowl in the image. We have supplied brass wall fixings to the rear which can be turned around or they can be hung via the string which is also attached to the rear. Please note; This item is in fantastic condition for its age as shown by the photographs. Being an antique item of this age there are obviously marks, scratches and dents. However, we feel that these points are which adds to its charm and character to a piece. Dimensions Height: 605mm Width: 320mm Depth: 35mm
