Description

Gents 1950s Smiths De Luxe wrist watch. The watch has a 17-jewel hand-winding movement, calibre 60466E, signed Made in England, which is working nicely. The watch measures 32mm diameter excluding the winding crown and the lugs. The case is gold plated while the case back is stainless steel. There is some rubbing to the plate on the top two lugs but not too noticeable when the watch is being worn, and some surface marking to the back of the watch. The lens is in good condition (there is reflection showing in the photos). The signed dial is in good original condition with original hands and centre seconds hand with red detailing. A new leather strap has been fitted. The watch comes in a new presentation box.
