Description

Antique gold filled pocket watch and chain. The watch has a good quality stem-winding movement with Breguet hairspring for enhanced precision, Geneva stripes to the plates and safety barrel (to prevent damage if the mainspring breaks). The movement is working nicely. The watch measures 50mm diameter excluding the winding stem and the loop. The case is gold filled and is in good condition. The screw-on case back has very ornate initials, GW. The acrylic lens is in good condition (some reflection showing in the photos). The dial has a few hairline cracks but they are faint. Original blued steel hands, a subsidiary seconds dial (with a small amount of adhesive residue around the centre) and an outer minute track. The watch comes with an 18ct gold filled double chain and double sided fob. Each chain measures 19cm long including the T-bar and clasp. The watch comes in a new presentation box.
