Description

A stunning original Art Deco period desk in walnut and leather. This was made in England, it dates from the 1920-30's. It is an unusual design, with a nice and compact size, the quality is absolutely amazing. The sides are curved and this has a stepped top, with an inset black leather writing surface. The solid wood construction has a combination of burr and figured walnut veneers, giving a striking effect. The chrome handles are original, and this is also beautifully polished on the back, so can be used as a free standing item. We have had this stripped and re-polished to a very high standard, the condition is superb throughout.
