## Description

A very attractive antique solitaire ring in solid nine-carat gold with a super sparkly high faceted stone which has a vivid yellow/green colour. Marked 9CT HW LD inside the shank. Believed to be the mark of H Williamson Ltd - a jewellers and watchmakers founded by Henry Williamson which traded under various iterations between 1871 and 1932, although from 1921 the business focused largely on clocks and watches. The ring is in very good antique condition; there are some abrasions to the facets of the stone when seen under magnification. Size: N and a half (UK), approx 7 (US). The stone measures 1cm diameter and the top sits around 1.3cm above the finger when worn. Weight: 3.1g. FREE INTERNATIONAL SHIPPING! Apologies but we cannot ship to Germany, any orders from Germany will be cancelled and refunded. Antique boxes pictured are not included unless specified; your item will come in a new box.
