Description

A handsome and most unusual magnifying glass in a winning and highly sought-after combination of English silver plate and Shagreen. The ferrule frame and terminal are all silver plated, Art Deco in era c.1930. The glass lens is the original with a good usable magnification, there is a natural slight wobble when used due to the traditional pinned construction rather than glued, as it should be and mentioned purely for accuracy. A real gem in excellent condition measuring 8 1/8" in length x 3 5/8" wide x 3/4" thick. Item: 44289 FREE Worldwide Registered Airmail Directly From the UK
