Description

A magnificent pair of antique leather wing back armchairs, possibly the finest pair we have come across. They were made in England, and they date from around the 1920's. They are of very impressive large proportions, the quality is absolutely amazing and they are extremely comfortable. They sit on beautifully carved walnut bases, with well shaped scrolled out arms, scrolled back wings and scrolled hump back head rests. We have had them fully re-upholstered in high quality leather, they have been hand coloured to a gorgeous brown tone. The seat cushions are double sided with leather and are feather filled. The bases have also been stripped and re-polished, the condition is superb throughout. The cushions are quite plump right now, because there are a lot of feathers inside, however they will flatten over time. Please check the proportions. Width – 39 inches , 99 cm Depth – 42 inches , 107 cm Height – 45 inches , 115 cm Seat height – 19 inches , 49 cm
