## Description

French Empire Buffet deux corps in cherry-wood with four doors with fielded panels to each, on cabriole legs with a decoratively carved apron, and steel escutcheons to the drawers and doors. Recently sourced on a French buying trip, this is the best example of this piece of furniture I have come across in many years, fantastically rich colour to the timber and very original overall , a superb example. Measuring 91" high by 25" deep by 60.5" wide. ( slightly wider at the top).
