Gents 1950s MuDu Doublematic automatic wristwatch

Price

Sold**Item Reference: SA1012667****Date of manufacture: 1950**

Description

Gents 1950s MuDu Doublematic automatic wristwatch. The watch has a Swiss 25-jewel automatic movement which is working nicely. The watch measures 32mm diameter excluding the winding crown and the lugs. The main body of the case is gold plated while the case back is stainless steel. The case is in lovely condition, just a couple of scratches to the back of the watch. The case back states that the watch is waterproof but, as with any vintage watch, it should be kept away from water and moisture. The lens is in good condition. The signed dial is in its original finish with original dauphine shaped hands, centre seconds hand and date display (not quickset). There is light freckling to the dial. A new leather strap has been fitted. The watch comes in a new presentation box.
