Description

Antique Elgin half hunter pocket watch, 1925. The watch has a seven jewel grade 292 stem-winding movement which is working nicely. The movement is fully signed and it has the serial number 28,308,912 which dates it back to 1925. The movement is protected by an inner hinged cover. The watch measures 50mm diameter excluding the winding stem and the loop. The case is the 10ct gold filled Moon model from the Dennison Watch Case Company, manufacturer of cases for Waltham UK. The case is beautiful condition with just a slight indentation to the front, not too detrimental at all. The winding crown pushes in open the front cover. Inside, there is an acrylic lens which is in lovely condition (there is reflection showing on the lens in the photos). The signed dial is in super condition with blued steel hands including the special half hunter hour hand so that the time can be read when the front cover is closed. The watch comes in a new presentation box.
