

SA101391

Antique Stick Barometer by Ortelly & Co of Macclesfield

Price

Sold**Item Reference: SA101391****Date of manufacture: 1800**

Description

A fine quality mahogany antique stick barometer. The rectangular silvered brass scale calibrated from 27" to 31" with sliding vernier. The thermometer calibrated from 20° to 100° Fahrenheit. The mahogany case with exposed mercury tube and turned cistern cover to the base. The glazed access door with broken architectural pediment above with central brass finial. Note: This barometer appears to have the actual date of manufacture on the scale which is a rare feature to find on barometers. Height: 39"
