Depth = 10 cm (3.9")

Description

Hi I have for sale an 1890 French cloisonné enamel masked dial carriage clock made in France which has been fully restored in both movement and case in December 2022. This is a genuine French carriage clock not a modern reproduction. The Case The case is in solid brass and stands 22cm high x 10cm wide with a depth of 10cm it is in mint perfect condition with mint thick beveled glass front and top viewing glass. The enamel bandings run right around the top and bottom plus all four pillars and the dial mask which is quite a rare feature on these clocks. The clock retains the original base plate. The Dial The dial is in untouched original condition with Roman numerals and the original ornate moon hands are housed in a beautiful enamel mask highlighted with brass stringing simply stunning. The Movement The movement is an eight-day time and strikes so strikes the hours and halves, the movement has been ultrasonically cleaned, hand polished, serviced, and oiled so keeping a great time over the eight days via the original silvered platform. This clock also has a working alarm function. I Have the original key and box also. Overall a very rare beautiful quality carriage clock b...
