Depth = 10 cm (3.9")

Description

Hi I have for sale a French striking and repeating carriage clock made in France around the 1870s; by Henry Jacot and signed between the plates with the hand-painted porcelain panels in a gilded engraved orbis case. This is one nice and heavy clock built to top spec and a must for the best of collections, with the entire clock with the same matching numbers which again is on the base of the escapement. The Case The case is in solid shiny gilt brass and stands 19cm to the top of the handle high x 11cm wide with a depth of 10cm it is in perfect condition with mint thick 3mm beveled front and top viewing glass. The side panels and indeed the dial are hand-painted porcelain panels the artwork is amazing. The case is very shiny and hard to photograph they do not do the clock justice at all. The Dial The dial is in original condition painted porcelain looks stunning in the flesh, the clock has very fine original black spade hands. The Movement The movement is an eight-day time and strike that strikes the hours via a small sweet gong to the rear the movement has been serviced so running great. The clock also contains Genre stop work to stop over winding a top-quality feature...

Internal Ref: Clive enamel panels Jacot
