Description

Antique Crown Watch Co pocket watch and chain. The watch has a 15-jewel stem-winding movement which is working nicely. The movement is signed Crown Watch Co, a brand name registered by New York Standard Watch Company (1885 to 1929), and it has a patent date of '10. The watch measures 50mm diameter excluding the winding stem and the loop. The case is the gold filled Crown model from the Philadelphia Watch Case Company. The case is in good condition. The back of the watch is patterned but the crispness has worn with age. The acrylic lens is in good condition. The signed dial looks good to the naked eye, there are a couple of short faint hairlines towards the edge of the dial but not too noticeable at all. The watch comes with a double chain which can also be worn as a single. The watch and chain will come in a new presentation box.
