Description

Outstanding quality walnut chest on chest in excellent condition from the Queen Ann period. This chest separates into 2 sections which allows for easy transportation in and around your home. The top section consists of 3 small drawers above 3 graduating drawers with reeded canted corners. Its base also has 3 graduating drawers with the addition of a pull-out brush slide. The bottom drawer has an unusual concave detail to the faux central drawer. All oak lined drawers boast desirable cross banded walnut veneers with cockbeaded edges and constructed with dovetail joints. The brass handles and escutcheons are probably a historical replacement however they are very attractive. There is a key however this only locks the top three drawers and the top drawer in the base. Like all antique furniture there are some imperfections but these only add to the charm and character of this solid chest of drawers. With its incredible colouring and amazing graining this is a striking example of period furniture offering a lot of storage space and history to any home.
