

SA1017136

Antique Omega pocket watch and chain

Price

Sold**Item Reference: SA1017136****Date of manufacture: 1910**

Description

Antique Omega pocket watch and chain. The watch has a stem-winding movement, signed Omega, which is working nicely. The movement is protected by an inner hinged cover. The watch measures 50mm diameter excluding the winding stem and the loop. The case is nickel. It has some unevenness to the back but overall it is in nice condition for a 1910s piece. The inside of the case back is signed with the early Omega logo. The glass lens has a couple of small marks but not too detrimental at all. There is some reflection showing in the photos. The white enamel dial has its original gold hands, a subsidiary seconds dial and an outer minute track. There are a couple of very faint hairline cracks but they are not too noticeable to the naked eye. The watch comes single chain, 23cm long. The watch and chain come in a new presentation box.
