Description

Antique Elgin pocket watch, 1912. The watch has a seven jewel grade 303 stem-winding movement which is working nicely. The movement is fully signed and it has the serial number 16,630,477 which dates it back to 1912. The watch measures 42mm diameter excluding the winding stem and the loop so smaller than a standard 50mm pocket watch. The case is gold filled and was made for Elgin by the Dueber Watch Case Company. The case is in nice condition, just some sight unevenness to the back of the watch. The acrylic lens is in good condition. The signed dial is in good condition, just one short faint hairline underneath the subsidiary seconds dial. Original blued steel hands. The watch comes in a new presentation box.
