Description

This quirky yet stylish asymmetrical limed oak low bookcase really evokes the period in which it was manufactured. It was one of a number of limed oak bookcases we were lucky to acquire from a Surrey residence. As you can see from the images, the surface of the underlying oak has a warm appealing honey tone, making this bookcase a perfect candidate if you are looking to furnish a period or contemporary interior. It will also sit comfortably with Heal's furniture from the 1920s and 30s. The shelves (height 20cm) will happily accommodate standard paperbacks and treasured mementoes.
