Description

A rare French solid silver pill dispenser box. It is hallmarked with two touch marks and the makers mark of Charles Murat. I would date it to c1900. It has been beautifully made in a classical design and is in super condition being free from dings splits holes and repairs. It measures approx. 1.5 inches (3.7cm) across by 0.25 inch (0.8cm) thick and weighs 12 grams. A very nice quality rare example.
