Description

Gents 1950s Lanco wrist watch. The watch has a 15 jewel hand-winding movement, a Langendorf 1022, which is working nicely. Lanco was one of the brand names registered by Langendorf. The watch measures 26.5mm wide excluding the winding crown and 26.5mm high excluding the lugs. The case is gold plated while the case back is stainless steel. The case is in lovely condition, as is the convex lens. The signed dial is in very nice original condition with original hands (the hour hand is a little wavy but not very noticeable when the watch is being worn). A new leather strap has been fitted. The watch comes in a new presentation box.
