Description

A fabulous vintage moonstone ring believed to date from the early-mid 20th century. The large stone - a true natural moonstone, not the white labradorite which is often described as "rainbow moonstone" - has unusually good transparency, with gorgeous shining clarity and an electric blue sheen. The ring is in excellent vintage condition. The moonstone has a tiny inclusion typical of the gemstone, see photos. Size: R (UK), approximately 8.75 (US). The moonstone is 1 x 1.5cm. Weight: 2.5g. FREE INTERNATIONAL SHIPPING! Apologies but we cannot ship to Germany, any orders from Germany will be cancelled and refunded. Antique boxes pictured are not included unless specified; your item will come in a new box.
