Description

A pretty antique brass wall light dating from the late 19th Century. It is a good quality piece with two arms and glass frilled shades. It is in good condition for its age and displays well. There are signs of age and use but no major damages or anything detrimental. A couple of the screws that hold the shades in place have been replaced at some point but the shades are still firmly held in place. It has been re-wired to modern standards to take bayonet bulbs. We would always recommend that the light is installed by a professional electrician. The best description comes from the photographs so please look at them all carefully and if you have any questions just ask. Tracked UK Delivery £25
