Antique silver chronograph / pocket watch

Price

Sold**Item Reference: SA1023514****Date of manufacture: 1900**

Description

Antique silver chronograph / pocket watch. The watch has a good quality stem-winding movement which is working nicely. The movement is protected by an inner hinged cover. The watch measures 51mm diameter excluding the winding stem and the loop. The case is silver and there are Swiss hallmarks for 800 silver inside both of the case backs. Overall, the case is in good condition, just a little unevenness to the sides. The back of the watch has engine turned detailing with a cartouche to the centre with the ornate initials SF or FS. The acrylic lens is in good condition. The dial looks lovely to the naked eye... if viewed through a strong jeweller's loupe, there is a short hairline at the bottom, not visible to the naked eye. The dial has two subsidiary dials, one for constant seconds and another to record up to 30 minutes. Pin set hands. The watch comes in an antique presentation box.
