Description

Silver 1930s pocket watch and chain. The watch has a Swiss made stem-winding movement which is working well. The watch measures 46mm diameter excluding the winding stem and the loop. The case is silver and has Edinburgh hallmarks for 1934 with a case makers mark for the British Watch Case Company. The case has minor surface marking and a small "ding" to the outer edge but overall it is in nice condition for a 1930s piece. The acrylic lens is in nice condition. The dial is in its original finish and it is in nice condition with just a little light marking and a couple of faint rings to the sub seconds dial. Original gold hands. The watch comes with a single silver chain, 23cm long including the T-bar and the clasp, all hallmarked for 1904. The chain weighs 19g. The watch and chain come in a new presentation box.
