Description

1930s 'The Consol' pocket watch. The watch has a Swiss seven jewel stem-winding movement which is working nicely. The movement is signed 'The Consol', and it is all protected by an inner hinged cover. The watch measures 50mm diameter excluding the winding stem and the loop. The case is gold plated and is in good condition with just light surface marks, nothing too serious at all. The glass lens is in lovely condition. The signed dial has a little patch of short hairline cracks at number 11 but otherwise is in good condition, with original blued steel hands, a subsidiary seconds dial and an outer minute track. The watch comes in a new presentation box.
