Description

Gents 1960s J W Benson wrist watch. The watch has a good quality 17-jewel hand-winding movement which is working nicely. The watch measures 33mm diameter excluding the winding crown and the lugs. The case is stainless steel and it is in good condition with just light marking, nothing serious at all. The case back states that the watch is water protected but, as with any vintage watch, it should be kept away from water and moisture. The lens is in lovely condition. The signed dial is in its original finish with dauphine shaped hands, seconds sweep and outer minute markers. There is a little discolouration but nothing too detrimental. A new leather strap has been fitted. The watch comes in a new presentation box.
