Description

Waltham Traveler full hunter pocket watch, 1912. The watch has a seven jewel stem-winding movement, Equity grade, which is working nicely. The movement is fully signed and it has the serial number 18,677,168 which dates it back to 1912. The movement is protected by an inner hinged cover. The watch measures 50mm diameter excluding the winding stem and the loop. The case is the 14ct gold filled Sun model from the Dennison Watch Case Company, supplier of cases to Waltham UK. The case is in good condition, just general light surface marks. The front cover has a small central lens surrounded by enamel filled Roman numerals. The winding crown pushes in to open the front cover. Inside, there is an acrylic lens which is in good condition. The signed dial has a couple of very faint hairline cracks, quite difficult to see with the naked eye. Blued style hands including the special half hunter hand so that the time can be read when the front cover is closed. Inside the back cover of the watch, there is a lovely old service paper, the first side is dated 1923 and the more detailed side is dated 1931. The watch comes in a new presentation box.
