Description

Gents 1960s Doxa wrist watch. The watch has a signed 17-jewel hand-winding movement, a Doxa 103, which is working nicely. The watch measures 35mm diameter excluding the winding crown and the lugs. The case is stainless steel and it is in good condition with just light surface marks, nothing too serious at all. The screw-on case back is signed Doxa to the inside and the outside has a foreign inscription / code. The winding crown is a later replacement. The lens is in lovely condition. The signed dial is in its original finish with original hands, seconds sweep and outer minute markers. A new leather strap has been fitted. The watch comes in a new presentation box.
