Description

Unusual early 20th century metal car mascot,c1920. Mounted on a later wood base the mascot is beautifully cast as a panther or Jaguar. It has fine detail to the features giving it a great expressive look. The eyes and mouth are hand painted, I am not sure if this is the original paint or it has been re-painted, if it was the latter it was done many years ago. The metal has taken on great colour/patina and the overall condition is very good in line with age and use. It is very sculptural and would work well as a standalone decorative piece. Please refer to the detailed photographs and feel free to contact me if you have any questions or would like to view the item. Price includes FREE UK delivery. Please contact me regarding international shipping. Size: 15cm tall x 15cm wide x 15cm deep on base, weight 1.25kg. Panther only 11cm tall x 10cm wide x 6.5cm deep.
