## Dimensions

Height = 1 cm (0.4")

Width = 1 cm (0.4")

Depth = 0.5 cm (0.2")

## Description

Elegantly simple screwback earrings each holding a fat polished coral bead. The coral is a deep orange salmon colour with a lovely glossy finish. • Condition: The earrings are in excellent antique condition. As a natural material the corals are unique in shape and colour and under magnification have a few natural surface imperfections, which is quite nice to see. • Hallmarks/stamps: 9CT on each screw. The gold has a very rich colour so it may be that the nine carat has been washed over with a higher carat gold. • Fixing: Gold screw backs. • Era: It's difficult to be precise as this is a perennial style but they could be as old as the 19th century (Victorian) up to about the 1930s. • Size: Approximately 1 x 1cm. • Weight: 3.7g.
