Description

Antique Waltham pocket watch, 1915. The watch has a seven jewel stem-winding movement, grade 610, which is working nicely. The movement has nicely patterned plates, and a Breguet hairspring for enhanced precision. The movement is fully signed and the serial number, 20291677 which dates it back to 1915. The movement is protected by an inner hinged cover. The watch measures 50.3mm diameter excluding the winding stem and the loop. The case is gold filled and is the Moon model made by the Dennison Watch Case Company. The case is in good condition, just minor marking from use and light wear to the edge of the back. The acrylic lens has minor marking but overall it is in nice condition. The signed dial has a couple of very faint hairline cracks at 11 & 6 although not noticeable to the naked eye. The watch has its original blued steel hands. The watch comes in a new presentation box.
