Description

A beautiful and unusual burr walnut caddy top chest of drawers of small proportions c1740 - 1750, with two columns of oak lined drawers. It has a quarter veneered and cross banded top, with similarly banded drawer fronts, and stands on bracket feet. The handles are not original but have significant age and suit the piece well. The timber is beautiful, and especially on the drawer fronts is highly figured. Condition: This is in good original condition, with a lovely patina and some minor surface wear, mainly to the top. There are a couple of areas on the top where the veneer has lifted slightly. The only thing of note is that the structure seems to have sagged in the middle a little, possibly due to the central divider between the two banks of drawers, and as a result some of the drawers don't sit perfectly in their spaces as the spaces are no longer perfectly level/square, though the drawers all run freely. Mainland UK delivery (excluding the Scottish highlands) is included in the price - if you would like a quote for delivery elsewhere, or if you would like to collect the item yourself, please get in touch. Delivery of furniture usually takes between 7 and 21 days from...
