Dimensions

Height = 37 cm (14.6")

Width = 37 cm (14.6")

Depth = 15 cm (5.9")

Description

A very fine example of these ever popular and sought-after wall clocks. The quality mahogany case has side opening inspection doors and a key-lockable door to the underside. It is beautifully polished with a deep, rich patina. It has a very narrow surround to the dial, which always enhances the overall elegance of this type of clock. The light cream dial has black Roman numerals and black spade hands. The colour of the dial, when contrasted with the mahogany case and brass bezel really exemplify the true antique nature of the clock. It has a convex glass; again raising it to a different level. The 8 day, chain-driven, fusee movement has just been fully overhauled by our BHI registered horologist and carries our usual 12mths full parts and labour guarantee. Complete with original keys and ready to go straight to work. All cards accepted.
