Description

Very decorative 19th century Italian pear wood with marquetry Gueridon centre table on a very unusual pedestal base, circa 1860. The top is marquetry inlaid with Romanesque figures and mythical beasts, the pedestal column being set into these carved laurel style feet, raised on turned buns. Wonderful table and as you can see, it has this lovely faded colour and finish, some age related marks and veneer nibbles which I have left as it all works well in this rustic style. Measuring: 29 1/2 inches or 75 cm high 30 inches or 76 cm diameter
