Description

Antique 1920s Buren pocket watch. The watch has a signed 15-jewel stem-winding movement which is working nicely. The watch measures 54mm diameter excluding the winding stem and the loop so slightly larger than a standard 50mm pocket watch. The case is nickel and it is in lovely condition. Screw bezel and case back, a nice sign of quality. The acrylic lens is in lovely condition. The dial has bold Roman numerals, blued steel hands and a subsidiary seconds dial. There is a short hairline running through number 3 but it is difficult to see with the naked eye. The watch comes in a new presentation box.
