

SA1036592

Rare Set of 8 Chairmakers Rounders

Price

Sold**Item Reference: SA1036592****Date of manufacture: 18th Century**

Description

VERY RARE graduated set of eight 18th century Chairmakers rounding planes in hickory. I sold these back in 1996 and have now bought them back, the only large set of these from this age I have ever seen. Used by Windsor chair makers and other Chairmakers for making the round back bars for various types of Windsor and kitchen chairs. They are all in totally original condition with all original parts. They are all a lovely colour with great patina. Snap them up now, you'll never see another set as good as these. CIRCA; 18th Century
