Description

1930s Swiss pocket watch, J W Benson. The watch has a Swiss 15-jewel stem-winding movement which is working nicely. The movement is signed with the name J W Benson. The watch measures 46mm diameter excluding the winding stem and the loop. The case is the gold filled Moon model from the Dennison Watch Case Company, a Birmingham based case manufacturer and supplier to various watch makers. The case is in good condition, just a 3mm indentation to the bezel by number 7 and a hint of unevenness to the back but it is very gentle. The glass lens is in lovely condition. The signed dial looks lovely to the naked eye. There is a very faint hairline running between the centre and number 10, barely visible to the naked eye. The watch comes in a new presentation box.
