Description

This is a remarkable Museum quality unrestored example the very rare Ulysse Nardin N120 from around 1955. The only work we have carried out is to service the movement and give the case a light polish with a soft cloth. The solid 18ct rose gold case is 34mm in diameter excluding the original crown, a full size gents. The case edges are sharp and crisp the watch looks like it was kept hidden away in a drawer and never worn. The movement is a calibre n120 which is quite rare and very high quality this was one of Ulysse Nardins highest grade movement of this period. It has been freshly serviced and is currently running at plus 10 seconds per day, not bad for a 60 year old watch. The dial is totally original and perfect it has had no restoration whatsoever. The hands are matching rose gold. It's the most original and perfect unrestored example you will ever see. As you would expect the watch is fully marked on the dial, movement and case. A very rare museum quality collectors piece. We offer a highly personalised and bespoke service.
