Description

A beautiful Indian solid silver bowl. It is unmarked but tests as high grade silver. I would date it to c1900. It has been wonderfully designed being supported on three legs and decorated with scrolls around a vacant cartouche. It is in super condition being free from dings splits holes and repairs. It is a decent size measuring approx. 4 inches (10.2cms) across by 2.5 inches (6.3cms) tall and weighs 120 grams. A beautifully designed high quality unusual piece.
